Hi All, I am sending this email to ask about the status of the access agreement provided during the site meeting in Oklahoma city on September 25, 2018. We are planning to be out next week to do some additional sampling and well installation. Please let me know if you

are considering allowing continued access for the investigation.
I have attached an electronic copy for reference. If it has been sent through the mail, I have not received it. If you can either scan and email, or take a picture and email that will suffice in the interim until the signed copy is received.

Thank you for all your support.
